## Required software and authorization

1. Before you can download library eBooks to your eBook Reader you will need to install Adobe Digital Editions (ADE) software on your computer. Click on the "Software link" on the right side of the screen, in your account. Download Adobe Digital Editions choosing run when given that option.
2. Open ADE, click on Help (top left corner), then authorize computer. Get an Adobe ID and then enter this email and password used in your registration with Adobe as your ID. **Note: You MUST create an account or you will not be able to transfer Overdrive eBooks from your computer to your eReader.** You cannot download Overdrive eBooks directly to your Reader, but must transfer ebooks using ADE.
3. With ADE open, attach the Reader to your computer via the USB port. You will be prompted to authorize your eBook Reader. Follow the prompts to authorize the device.
4. On a PC, the Reader will show up if ADE is already open, and might not show up if you connect the Reader first. On a Mac, the Reader may not show up if Adobe Digital Editions is already open when the Reader is attached. To solve this problem attach the eBook Reader and then open ADE. Your PC may require you to restart.
