Availability

Generally, our equipment can be used for free by the public **with a library card** during the open hours of the Wolfville Memorial Library Innovation Lab. The schedule for open hours can be found on the Annapolis Valley Regional Library website and is updated monthly.

Agreements can be made to use this equipment at different times, including weekends. Please contact us if you are interested in using this equipment for a short term.

While it is evident that our facility may only offer space for a few people at a time, we are unable to accommodate the use of our equipment outside our facilities.

It is expected that this equipment is treated with care and respect, as it is free to use. While we can train the basics of our equipment to new users, former experience will allow a higher production quality.

All inquiries can be sent to wolfvillemediamakery@gmail.com or wolfvilleinnovation@valleylibrary.ca and we'll respond as quickly as possible. An email is not required if you'd just like to drop in during open hours, during which we limit the use of our equipment to 90 minutes at a time.
